Subject: surplus vocational equipment at the CTC

Mr. Huss,

We have some surplus equipment at the CTC that has been taken out of the shops due to age, condition, or safety concerns.

We are in the process of making a listing of the items and their county ID numbers.

I have offered the equipment to Larry and Phil as well.

Could we get this on the agenda for the April School Board meeting? If so, we could take bids and get this equipment out of our way prior to the end of the current school year.

Thanks,  
Russ
