Check the appropriate category of schools involved in initiatives:

- All Title I Elementary Middle High Schools Targeted Need: Specify:

Schools Impacted:

All five Title I schools: Black Oak Elementary, Hillcrest Elementary, Lake Road Elementary, Ridgmont Elementary, South Fulton Elementary

Total amount of initiative:

Check the areas in which funds will be budgeted:

- Personnel – salary or stipends Equipment
 Instructional supplies and materials Professional development
 Other (specify)

Is this initiative **ONLY** at high priority schools? Yes No NA

Does this Title I set-aside require equitable participation with students in private schools? Yes No NA

Consultation has occurred in advance with teachers, service personnel, principals, Title I parents, and private school representatives. Documentation is on file in the LEA. Yes No NA

Describe the Title I set-aside instructional initiative in sufficient detail that the goals and purposes are clear. Make sure to include dates of services, length of time services will be available, staff involved, link to TCSPP or TSIP. Justification for instructional materials, equipment, or other purchases **AND** professional development to integrate materials or technology into the curriculum must also be included.

In order to make online resources more readily available to students and teachers throughout the schools, wireless capability will be provided at all Title I schools with Title I ARRA funds. These resources will support and enhance instructional programs and professional development in all content areas as described in the TCSPP and TSIPs of each school. Installation will be completed prior to school beginning in the fall of 2010. The wireless access resources will then be available for future years to students. Professional development funded by Title IID will support the teachers' utilization of these online resources available through this initiative.
