

DRUG SURVEY QUESTION AND RESULTS

Drug Survey Question:

Students:

Tennessee has passed a law allowing random drug testing to be administered for any student participating in extracurricular activities. These activities include all sports, clubs, and more. The school board would like to know your opinion on administering these drug tests. Please know that the results of these tests are for your safety and cannot be used as evidence to expel or arrest students. Intervention and counseling will be provided for any student that fails these randomly administered tests.

Please answer the following question yes or no.

Do you feel that these drug tests should be administered to our eligible students at random?

Yes

No

Drug Survey Results from Obion County Central and South Fulton High School:

(Some students from each school did not answer the survey.)
