Systems Exchange™  
*A Division of Insight Investments™*

Obion Reviewers,

Enclosed is the bid offered by Insight Systems Exchange, the largest reseller of computer hardware for education in America. We are proud of our commitment to American schools as our tax dollars fund the purchases; we hate to lose customers to our neighbors to the north. Our economy needs to keep as many dollars as we can in our borders, please consider this.

The turn around time for parts and the fact that you never pay for shipping or experience customs delays should be a factor; the cost of shipping has been included in the equipment price. The proposal is all inclusive, machines, shipping, warranty are all considered, you will not pay another cent for these while under warranty.

Insight is committed to the education of America's youth, put ISE to the test. Understand that there may be a lower number out there, American quality and thoroughness sometimes has a price tag. Don't skimp on your students, when these costs are evaluated, ask the users that deal with the units on a daily basis. I do not pretend to know anything about school busses so I would ask the opinion of the bus mechanics before I agreed to a contract or purchase.

Demand American Quality... Demand Insight.

Thank you for your consideration as a potential customer.

Shannon Charfauros

Account Executive
