

Mr. Huss and School Board Members,

The South Fulton Baseball team and I are requesting permission to construct new dugouts and backstop at South Fulton High School. The project expenses will be paid with fundraising money as well as the South Fulton Booster Club. The dugouts will be built out of concrete blocks with the backstop being a wood frame with netting. The prospective dates of the project will be early September to October. I have also been communicating with Mr. Parks and Mr. Graham with any suggestions for the project. Thank you for your consideration.

Jeremy McFarland
Head Baseball Coach
South Fulton High School
