Professional Services:

To successfully implement a 1:1 program, we feel 2 areas must be addressed. The first of which is your network within your schools to make sure it is robust enough to handle the increase of devices touching the network. In your case, this is in the process of being addressed as your network will be over-hauled beginning in February of 2016.

Secondly, we feel professional development must be invested to establish a structure of a train the trainer mentality. In other words, you get a base of teachers trained on implementing a 1:1, and subsequently they are then able to train their co-teachers.

Our Professional Services offer includes the onsite training of Jill Pierce, a Microsoft certified trainer, and also Director of Technology in McMinn County Schools in east Tennessee.

Jill would come onsite for one day to work with the Obion staff.
