

Provide pricing for the following entities at 10 GB WAN service (to be connected to Obion County Central Office)

Site	*Cost per Site	**Indicate Monthly, Annually, or one time charge	E-rate Eligible Y or N
Black Oak Elementary	\$1,800	Monthly	Y
Hillcrest Elementary	\$1,800	Monthly	Y
Obion County Central High	\$1,800	Monthly	Y
Lake Road Elementary	\$1,800	Monthly	Y
Ridgemont Elementary	\$1,800	Monthly	Y
South Fulton Elementary	\$1,800	Monthly	Y
South Fulton Middle/High	\$1,800	Monthly	Y
Obion County Central Office	\$1,800	Monthly	Y

Pricing is based on the ring topology requested using a lit fiber service. Site pricing is average based on the entire network. Obion County Bus Garage was not listed on the specific chart above but was listed on the site list. 10 GB WAN service to add this site is \$1,050 per month. This site is considered E-Rate eligible.

ENA Wide Area Network (WAN) Service Footnotes

1. The pricing above is the gross monthly price for service before any E-rate discount is applied.
2. ENA will not penalize Obion County School District for any school consolidations or closings.
3. All service pricing listed is per month and per unit.
4. ENA’s managed WAN service is priced as one service including circuit, end site router, equipment maintenance, service monitoring, field support, and Service Level Agreement (SLA).
5. All service delivery prices (including optional services) are based on expected site readiness to receive the services including conduit, electrical capacity, backer board, and similar. In the event that site walk-outs determine a need for site make-ready work, service may not be available until such work is completed by the customer.
6. There are currently no governmental fees applicable to the broadband services requested. However, if such fees become applicable in the future, governmental fees (to the extent the customer is not exempt from such fees) including state, local, and federal taxes, fees, USF, E911 taxes/fees, and similar are in addition to the above rates. These fees will be charged at the applicable rates set by governmental entities and are subject to change over the life of the service contract.
7. ENA broadband services are subject to ENA’s acceptable use policy.
8. ENA will notify the customer once the carrier installs the circuit, and ENA is ready to turn up service. ENA will work with the customer to determine a mutually agreed upon date to turn up service. In the event of customer delays in turning up service, ENA reserves the right to start billing the customer for the service two weeks after ENA’s notification that service is ready to be turned up.
